**Final mark** \_\_\_\_\_

**TU/e Supervisor**

**Date**

.....

.....

<sup>1</sup> See the table under 'Explanation'

<sup>2</sup> The student passes the internship if the grade is 6.0 or higher.

## Explanation

### Context of the form

This form is part of the procedure: Assessment Internships MSc MW, AT, S&C, SET. This procedure consists of three steps:

1. Assessment by the external supervisor
2. Assessment by the TU/e supervisor
3. Grading by the TU/e supervisor

The results of step 1 and 2 are input for step 3.

### Purpose of the form

The form facilitates the third step.

### How to use the form

The TU/e supervisor comes to a verdict by taking into account

- the assessment of the external supervisor of the approach and execution of the internship and
- his/her own assessment of the report and the presentation.

The TU/e supervisor is the only person who is authorized to grade the internship. Therefore he/she has to treat the assessment by the external supervisor as feedback that may be overruled by the TU/e supervisor.

The STUDENT delivers this form to the CSA of the relevant department, according to the course code.
